CO OUTDOOR CHAIR  
Designed by *Norm Architects & Els Van Hoorebeek*

*Audo Copenhagen launches the Co Outdoor Chair.*

In a comprehensive extension of the Co Collection, a new chair design seamlessly integrates into the existing series, elevating outdoor spaces with its contemporary aesthetics and unmatched functionality. With its sleek and minimalist look, the Co Outdoor Chair complements a range of settings, from modern patios to traditional garden spaces, seamlessly combining practicality, sustainability and functional finesse. Its ingenious stackable design offers a space-efficient solution for storage that is both convenient and organised when not in use.

Shaped from recycled plastic to reduce its environmental footprint, the chair is both lightweight and easy to clean, making it a practical choice for outdoor spaces where it can be moved and rearranged as needed. And its sturdy build ensures durability, providing long-lasting comfort. Withstanding weather conditions for high performance throughout the year, it is UV-resistant and colour-fast to prevent fading and maintain the chair's aesthetic appeal over time, even when exposed to prolonged sunlight.

The Co Outdoor Chair launches online and at Audo Copenhagen retailers on 28. February 2024.

*About the Designer*

The Co Collection is designed by Norm Architects and Els Van Hoorebeek.

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with Audo, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement.
