

Sporta
Dog Carrier

SKU:

C11-004-01-S/SM, C11-004-03-S/SM

Description:

Designed so that even the smallest dogs can be safe and comfortable on the go, the Sporta dog carrier impresses with many smart details that make the bag not only unique, but also comfortable for dog and owner.

The inside of the bag provides a soft padded mattress, which can be removed for washing or for small breaks and is perfect as travel bed. As an all-rounder for humans and pets, Sporta offers a clever layout with compartments and pockets for all sorts of everyday items. Adjustable shoulder straps ensure optimal carrying comfort, while the trolley clip-on function makes the dog carrier a perfect companion when traveling. The sewn-in inner strap with carabiner keeps your dog securely in place..

The outside of the bag, as well as the underside of the removable mattress are made of water-repellent polyester, which is made from 100% recycled PET bottles and is therefore not only environmentally friendly but also very robust and durable.

The trendy trapezoid shape of the bag convinces with minimalist lines and a timeless look. Coordinated details, such as the monochrome nylon webbing strap with MiaCara logo print and the matte D-ring round off the clean design. Combine the dog carrier with the Sacchetto poop bag dispenser in matching color to be prepared for all situations
